DETAILED ACTION

This action is in response to Amendment after non-final rejection filed June 10, 2005.

All applicant's arguments have been considered.

Response to Arguments

Applicant's arguments, see Amendment, filed June 10, 2005, with respect to claims 1-22 have been fully considered and are persuasive. The rejection of claims 1-22 has been withdrawn. Applicant argues that the prior art fails to teach or suggest a single viewpoint on an optical axis located at the center of the spherical refractive surface and the first focus of the elliptical reflecting surface.

Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 18, newly cited Buchele (US 2,638,033) teaches a solid catadioptric lens (Figs. 1 and 2) and a spherical refracting surface (10 and 20) and a single viewpoint (14 and 24) and a shaping surface (19 and 29) but lacks an elliptical reflective surface with a first focus coincident with the center of the spherical refracting surface where the center of

the spherical surface is the single viewpoint. The prior art of record fails to teach locating a first focus of an elliptical reflecting surface of a solid catadioptric lens at the same location as a center of a spherical refractive surface which is the location of a single viewpoint.

The remaining claims depend from claims 1 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joshua L. Pritchett whose telephone number is 571-272-2318.

The examiner can normally be reached on Monday - Friday 7:00 - 3:30.
